

**16", 22", 26" Fully Enclosed Production Abrasive Saws**

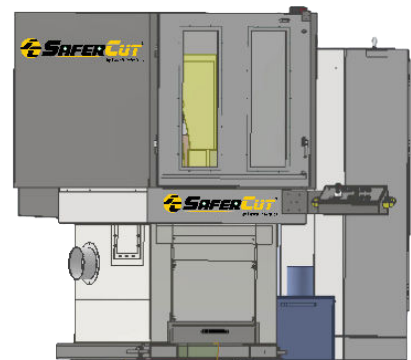

*Productivity EHS will love.*

**16" SaferCut®**

**22" SaferCut®**

**26" SaferCut®**

*Its not just a saw, it's a solution.*

**[Standard Features]**

- PLC Control System
- Integrated Safety System
- Fully enclosed or Pass-Through
- 2-Hand Cycle Start
- Interlocks tied to Wheel 0-Speed Detection
- Safe Minimum Reach-In Distances
- Manual or Proportional-Directional Hydraulic Controls
- Wet or Dry
- Heavy Duty Construction
- Debris Collection Bin
- Compliance under ISO13849, ANSI B7.1, EN Machinery Directive

**16"**

- 10HP(7.5kW) or 20HP(15kW)
- Up to 3" Solids and most 5" Shapes

**22"**

- 20HP(15kW)
- Up to 4" Solids and most 7" Shapes

**26"**

- 40HP(30kW) or 50HP(37kW)
- Up to 7" Solids and many 7" Shapes

**[Optional Features]**

- VFD with Dynamic Braking
- Cutsense Operator Feedback
- Full Process Automation
- Industry 4.0 Data Package
- Dust/Mist Collection
- Coolant Filtration(Wet Saw only)
- Gravity Roller Infeed/Outfeed
- Automated Material Handling and Cutting
- HMI with Process Control Software
- Custom Workholding
